196 pages; Berlin, 2020  
**22.00 €**

Which ingredients of a cooperative community project most help it succeed?

What are urban commons and how do they fit into current activist and civil society debates?

And what tools and methods do commoners need to strengthen their work?

These are the questions at the heart of **The Urban Commons Cookbook**, a handbook for those interested in starting, growing and supporting community-led projects.
